PREAMBLE

There is no doubt that the Balanga/Billiri Federal Constituency in Gombe has witnessed unprecedented development in all its nooks and crannies during the last two years (2023 – 2025), and these developments are the result of the purposeful leadership and representation that Hon. Ali Isa JC, PhD (Makaman Cham) has brought for the Constituency at the House of Representatives.

Of course, it is not as if these past two years are the only period in which the Constituency enjoyed dividends of purposeful leadership from him, as he has previously proven his mettle when he was first elected to represent the same Constituency in 2015 – 2019. During that time, he set the record of providing Classrooms, Motorised Boreholes, Handpump Boreholes, Rural Electrification projects and empowerment schemes of different varieties, ranging from Agriculture to Skills Acquisition. The taste and thirst for what good leadership can provide are what motivated the people of Balanga/Billiri Federal Constituency to bring him back in 2023 in order to continue from where he stopped in 2019.

Armed with this new mandate, Hon. Ali Isa JC PhD renewed his service delivery to his people with fresh passion and zeal, for which he has set new records in just two years. As you will see in this document, he has touched the lives of the people much more than ever, ranging from providing financial assistance through customised ATM Cards to the construction of Road Networks, Solar Street Lights, Potable Water, Schools, shops, hospitals etc.

This document will serve as a historical fact sheet for not only the general public but for students of leadership and politics, and will also serve as a reference point for aspiring politicians who want to learn the art of indelible service delivery. And as we look forward to the next two years of his 4-year mandate, there will be no doubt that the people of Balanga/Billiri Federal Constituency are set for a great time like they have never had.

Permit me, once again, to express my gratitude and heartfelt appreciation for the mandate you overwhelmingly gave me again in 2023 to represent you as your member of the House of Representatives at the National Assembly. Your decision to return me to the National Assembly at that crucial time after you tested me with the same mandate in the past was a great demonstration of the trust you have in me to adequately serve you in the protection of your interests at the federal level.

TWO YEARS INTO THE JOURNEY 2023/25

MY MESSAGE OF

APPRECIATION BALANGA/BILLIRI

FEDERAL CONSTITUENCY GOMBAKASE

By HON. ALI ISA JC, PhD
(Makaman Cham)

And as it so happened, your trust in my abilities to serve you diligently and faithfully resulted in a much bigger win for all of us in Balanga/Billiri, as the national stakeholders of the entire coalition of opposition parties saw me fit to be entrusted with one of the Principal Offices of the House of Representatives, for which I became the Minority Whip of the House. I owe this achievement to God Almighty and to you, the great people of Balanga/Billiri Federal Constituency. With this development, I became more energized in my resolve to bring more developmental projects to our Constituency because I saw it as an opportunity to put our communities on our country's map of development and prosperity.

This is why, from day one, I went to work, deploying all the influence and opportunities available to my office to secure the viable and very visible projects everyone now sees in all the nooks and crannies of our Constituency. Within these past two years alone, I can confidently say that I have built more than 40 blocks of classrooms across all the Wards in addition to constructing about 20 kilometres of well-asphalted roads across some of our communities in the constituency. For the first time in our Constituency's history, we now have Solar Street Lights in many communities, including the major towns, and I also held several record-breaking empowerment programmes wherein items ranging from Cars, Tricycles, Motorcycles, Agricultural Machineries and Farm Additives, Sewing Machines, Laptops, Smartphones, etc, were shared to thousands of beneficiaries drawn from all parts of Balanga/Billiri Federal Constituency.

During the period under review, there is hardly any segment of our populations that have not benefitted from my empowerment programmes, projects, or initiatives. As you will see in this document, even Religious Groups and Students' bodies have benefitted from my programmes through the provision of cash grants to help them pursue their aspirations. Added to this is my initiative of empowering over 5,000 people with financial aid through customized ATM cards. The health sector is also not left out, especially when I am even on the verge of completing some healthcare facilities that are being built through my office and I have also distributed some modern ambulances to some communities in the Constituency.

The size and magnitude of our achievements in the last two years are beyond the scope of this short speech to be listed in totality. But if you go through the pages of this brochure, you will find them in greater detail, including their locations, especially the ones involving construction. My hope is that this brochure will serve as a compendium of reference for our people, including Students and Researchers; where they can easily point to our achievements and easily find those same developments in the locations they are cited.

MY MESSAGE OF

**APPRECIATION
BALANGA/BILLIRI**

FEDERAL CONSTITUENCY GOMBE STATE.

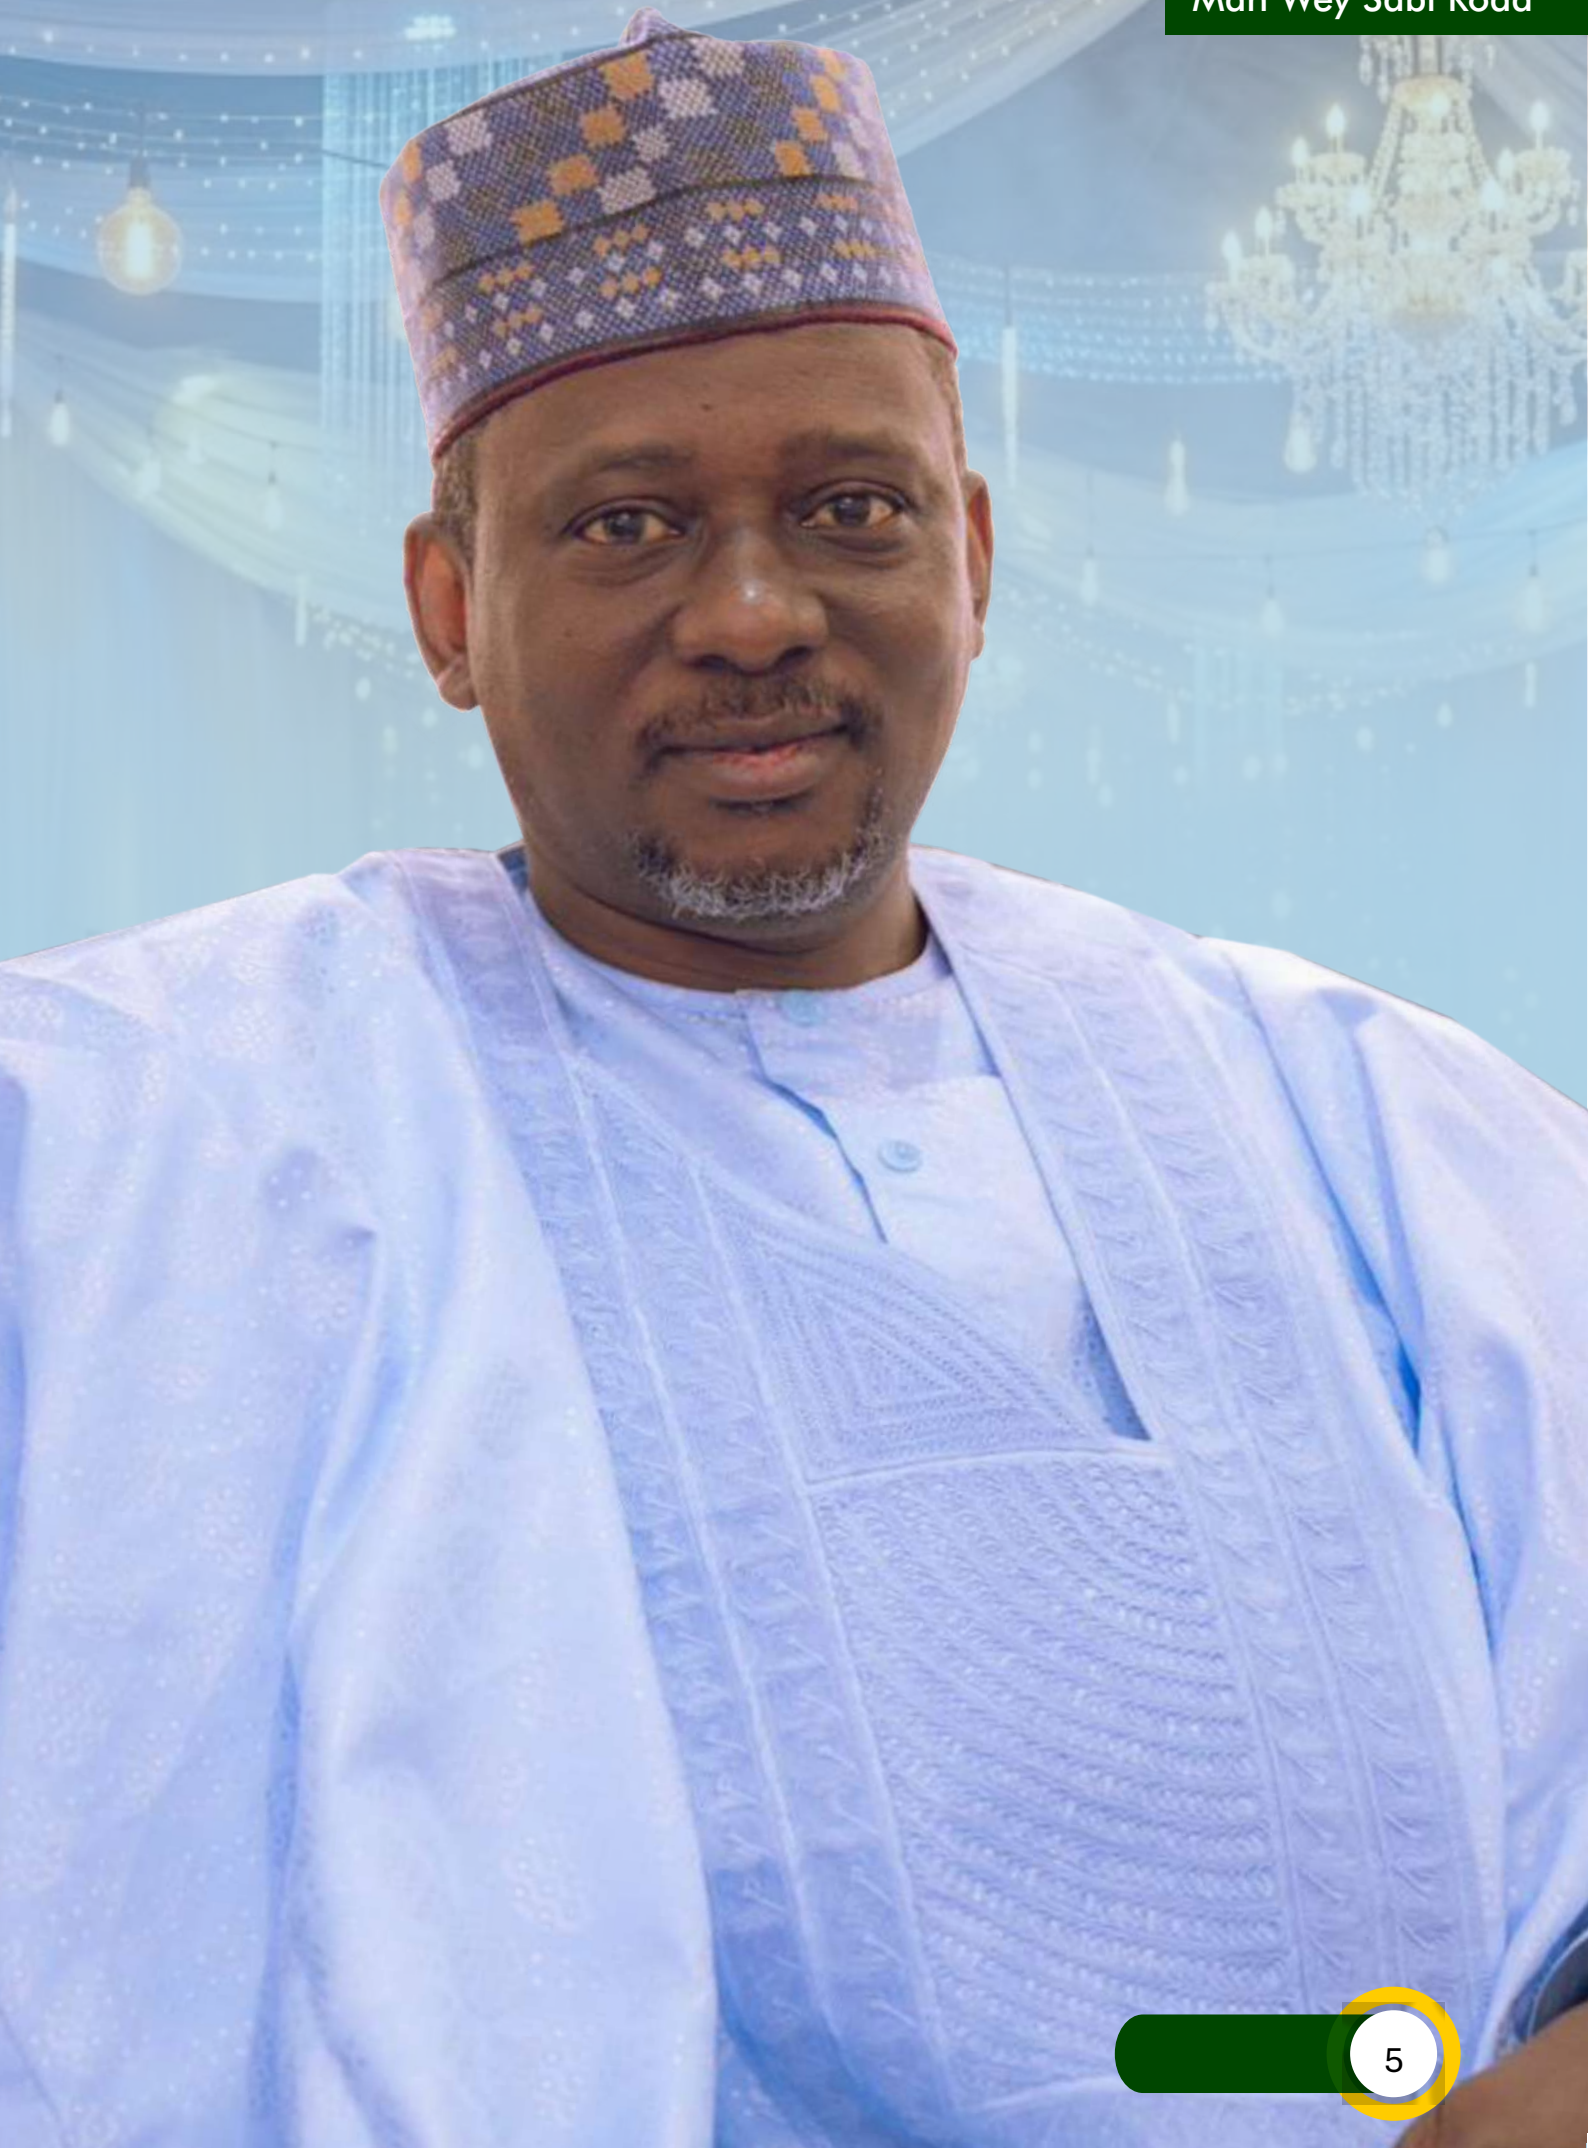

By HON. ALI ISA JC, PhD
(Makaman Cham)

In conclusion, let me humbly say that these two-year achievements are just a start, as there are more such projects and even much bigger ones in the pipeline for our Constituency. All I need is your unwavering support and prayers so that we can bring them to fruition. I look forward to an even brighter and better Balanga/Billiri Federal Constituency in the concluding two years of my mandate.

Thank you so much.

God bless Balanga/Billiri Federal Constituency!
God bless Gombe State!
God bless Nigeria!

Hon. Ali Isa JC, PhD (Makaman Cham)
The Minority Whip,
House of Representatives,
National Assembly, Abuja

WHAT TO KNOW ABOUT THE MAN HON. ALI ISA JC, Ph.D (Makaman Cham)

Born on the 4th of June, 1975 in Cham, Balanga Local Government Area in Gombe State, Hon. Ali Isa JC (Ph.D) lived his life under the tutelage and influence of his parents, especially his late father, Alhaji Isa Jabbule Cham, who was a frontline conservative politician since the days of the late Sardauna of Sokoto, Sir Ahmadu Bello, up till his demise in 2017. In other words, it can be said that politics runs in the blood of the family, which is evidently made manifest in the life of Hon. Ali Isa JC.

It is important at this point to highlight the fact that Hon. Ali Isa JC, PhD, is a man of destiny who successfully fought all manner of obstacles that life threw at him before he became what he is today. Earlier during his childhood, specifically during his secondary school days, when he was preparing for his WAEC exams, he had an accident in which he broke his right hand. But undeterred, he instantly began learning how to write with his left hand and successfully wrote his exams with that newly acquired ability to write with his right hand in such a short time, which subsequently enabled him to continue with his academic pursuits. This fact has therefore reinforced the conviction that with determination and belief in one's abilities, anyone can overcome any obstacle and succeed in life.

And in what can be accurately attributed to destiny playing a big role in his life's trajectory, Hon. Ali Isa JC's first place of employment was the National Assembly, where he was employed as a Senior Protocol Officer in the year 2000 after obtaining his National Diploma in Management Studies from the Federal Polytechnic, Bauchi in 1998. He served in the Protocol Department for 12 years (2000 - 2012) before retiring to venture into full-time politics, and it is important to state that his job as a Senior Protocol Officer at the National Assembly entailed being a liaison for Members of the National Assembly and Foreign Missions (Embassies) in Nigeria, which helped in shaping his understanding of the workings of the parliament.

After venturing into full-time politics, Hon. Ali Isa JC was appointed as the Senior Special Assistant to the Gombe State Governor on MDGs (now called SDGs) from 2012 to 2014, after which he contested and won the election to represent the Balanga/Billiri Federal Constituency of Gombe State at the National Assembly in the 2015 general elections on the platform of the PDP. And during his first stint as a Member of the House of Representatives, he served the country as the Deputy Chairman/Acting Chairman of the House Committee on Emergency and Disaster Preparedness in addition to being the Subcommittee Chairman on SDGs. While leading those committees, he was also a member of several House Committees such as Public Accounts; Defence; Finance; Police Affairs; Economic and Financial Crimes Commission; Constituency Outreach, etc. Remarkably, as the Acting Chairman of the House Committee on Emergency and Disaster Preparedness during the 8th Assembly, he led the investigation that indicted the Management of the National Emergency Management Agency (NEMA) over cases of corruption levelled against them.

Married with 4 children, Hon. Ali Isa JC holds the enviable traditional title of Makaman Cham. He has a Masters Degree in International Relations (University of Abuja, 2010 - 2011), and another Masters Degree in Business Administration (MBA, Nassarawa State University, 2011- 2012), after which he crowned it with a PhD in Business Administration (Nassarawa State University, 2017 - 2021). And owing to his unmatched successes in his first outing as a Member of the 8th Assembly, Hon. Ali Isa JC got reelected by his people to represent them in the 10th Assembly, and in recognition of his political sagacity by all the relevant national stakeholders of the opposition parties, he got elected as the Minority Whip of the House of Representatives of the 10th National Assembly - a position that is currently enabling him to serve his Balanga/Billiri Federal Constituency and, indeed, all Nigerians in the best way possible.

Remarkably, as evidence of his popularity, which is occasioned by his bridge-building abilities, Hon. Ali Isa JC's federal constituency is predominantly Christian while he is a Muslim, yet the overwhelming majority of the people there have found him more credible to trust with their electoral mandate, thereby defeating obstacles of sentiments usually thrown by scared opponents, which again proves that success in politics can be attained through purposeful commitments to the fulfilment of the desires of the people instead of deploying divisive tactics to win elections. The political story of this man is sufficient proof that Nigerians are always willing to live with one another to pursue

common goals of development and prosperity in spite of their differences in tribe and religion.

Consequently, in recognition of his great leadership traits, and in appreciation of his beneficial selfless service to all the communities in Balanga/Billiri Federal Constituency, all the four paramount chiefdoms in the constituency have honoured him with fabulous traditional titles, namely the Makaman Cham, the Danlelen Waja, the Danmattawalen Tangale, and the Dallatun Dadiya. And to those who know him closely, these honours do not come as a surprise because he merits them, especially knowing that his passion is always about the wellbeing of the weak and vulnerable populations of the society.

EDUCATION SECTOR

Honorable Ali Isa JC PhD has done incredibly well in the Education sector, since his assumption to office. He started with a distribution of learning materials such as computers, books etc. to various schools in Balanga and Billiri Local Government Areas of his constituency. He distributed not only learning materials but also with classroom materials such as desk, chairs, and school bags to ease the learning process to the beneficiary schools shortly after resuming office in 2023 to demonstrate his capacity even as the year's budget was not prepared and executed by him. In the year 2024 when he prepares his budget, it was a shocking surprise to his constituents because of the humongous construction of classroom cut across various wards of the two local governments he represents, either block of three classrooms or six classrooms were physically seen in some schools that were lacking such infrastructures. He has succeeded to personally furnish some of the schools and still extended his magnanimity to sink borehole in Government Girls Secondary School Cham to ease the burden of such facility in a boarding school. However, this gesture became a huge relief to the students. Scholarship was given to five hundred students of higher Education to support their learning across the two LGA's.
